

Island.

The result is, the election of a whig Governor by 500 majority, and the rest of the whig ticket by more than 600. We have carried the entire Senate, and a decisive majority in the House of Representatives! At the last gubernatorial contest which was in 1836, the whole number of votes for governor was 7151, of which John Brown Francis had 4020; Tristram Burges 2934, scattering 147. Majority for Francis 599. The Whigs ran no ticket at the Spring election of 1837.

From the Providence Journal.
Once more victorious! Another contest is over. Another battle has been won. The same banner which led us on to victory, in August last, now floats in triumph over another well fought field. The freemen who then came out four thousand strong, for Tillinghast and Cranston, have now mustered in equal force and contended with equal success, for the same great principles. The good work which was begun at that time is now completed: the last vestige of loco-focism has been swept away; and with joy, not less than we felt in announcing the victory of last summer, we are able to say that the entire whig ticket has been elected by a triumphant majority.

This result has been effected after one of the severest political contests that ever occurred in this State, and one which has brought into the field the entire strength and energies of both parties.

Our friends have come out well; the day was devoted to the great purposes before them—that of sustaining sound Whig principles. Business, other than that which concerned the election, there was none; the merchant closed his ledger, the mechanic laid aside his tools, the farmer his implements of husbandry; all knew and felt how much was at stake, and the glorious result has well rewarded them for their zeal and activity.

The Bank Convention at New York, has terminated its sitting. The several deputations from the States, with the exception of New York and Mississippi, agreed upon the first Monday of January, 1839, as the period for resuming specie payments; and a resolution to that effect was passed; leaving it, however, optional for any bank, so disposed, to do so at an earlier period. Fourteen States and the District of Columbia, were represented. Philadelphia, and the State of Pennsylvania, was not represented. After the Convention terminated, the New York Banks passed a resolution fixing the 10th of May, as the day on which the Banks in that state would resume specie payments.

MONEY MATTERS.
New York, April 22. The position of things has materially changed within a few days. Early in the week it was announced that one bank had arranged for the reception of a million of pounds sterling in specie, a portion of which has already arrived. The Bank of the United States and various individuals, have made similar arrangements, so that at least ten millions in specie will be received here within the next sixty days. This, so far as specie is concerned, will have a very important effect. The Bank Convention have met and adjourned, and although there was not a unanimous agreement, yet nearly all the banks agreed to resume in January next. The New York banks will commence in May. The Legislature have adjourned. They have passed the law repealing the rescinding law, and authorizing private banking. This is a new era in the history of our finances. Hitherto no bank has been established here, except those incorporated. It is believed by many that large capitals will be created, and that ultimately a new and better system of banking will be introduced.

Uncurrent Money.—The adjustment of the bank convention and the determination of the banks not to resume until January, has caused uncurrent money to get worse. Eastern bills are from two to three per cent. United States Bank four per cent. These rates are considerably worse than last week.

Specie.—Specie is at 1 to 1 per cent. discount, but there are no buyers for large lots. The holders will probably deposit their specie in bank. The Southern and Eastern Banks are rolling up their balances in this city, and no doubt with the intention of drawing specie. From present appearances, our banks will be abundantly supplied to furnish them with any amount they may want.

The Boston Banks are paying specie on all their bills of five dollars and less.

BANKRUPT TREASURY.—Mr. Cambreling, the Chancellor of the Exchequer for the Administration, has brought forward a bill in the House of Representatives to re-issue the Treasury notes that were authorized in October last to the amount of ten millions of dollars, and urges its passage on the ground that "unless the bill is passed the Treasury Department could not meet the demands against the Government." Pretty confession this, for an Administration that came into power with a vast surplus in the Treasury, and with loud professions of love and attachment for "an exclusive metallic currency."

FOREIGN.
An arrival at New York, brings Liverpool dates to the 26th ult. The news, however, is not of much importance. The London Gazette says that the Queen has conferred the honor of Knighthood on Allan McNab, "Colonel of the militia of Upper Canada." We think the advisers of her Majesty showed less sense in recommending such a proceeding, than the legislative council of the Upper Province, who refused to confer the grant proposed by the assembly for a second time, to be presented to the Queen and Captain Bess. It is true, the affair of knighthood now-a-days, is a matter of very small importance, and we question whether the Colonel thinks it a sufficient reward for his devotion to the cause of the Queen. There is much said in the London papers respecting the arrangements for the coronation, which is to take place in June, and which, it is said, will involve in splendor all former exhibitions of the kind. It is confidently rumored that the Premier, Lord Melbourne, is about commencing negotiations with the Queen Mother, the Duchess of Kent. Another report of the river Thames into the Tunnel, took place on the 20th ult. which filled the tunnel in about a quarter of an hour. Although sixty or seventy persons were in it at the time, fortunately all escaped without injury. The Dorchester labourers, who were transported to Botany Bay in 1834 for illegal combinations, having been pardoned, have returned to England.

It is confidently asserted that the King of Holland has at length consented to the 24 articles agreed to

in 1831, as the basis of a separation of Holland and Belgium.

An official despatch from Viscount Palmerston to the British Minister at Washington, dated the 19th Nov. last on the subject of the North Eastern boundary, has been printed for the use of Parliament, and is now published. It is as conciliatory in its tone as can be desired, and probably led to the late proposition of the President to the State of Maine, that a conventional line of division should be adopted.

STEAM ARRIVAL FROM EUROPE.—The first experiment in Steam Navigation across the Atlantic has been successfully accomplished, and henceforward we may date from the 23d of April, 1838, as a New Era in the history of commercial and social intercourse between this country and Great Britain. This event is rightly considered a matter of mutual congratulation between the citizens of the old and new Worlds, and proper arrangements have been made in the city of New York, for the public commemoration of an event so auspicious of unbounded enterprises for the future.

The Steam Ship Sirius came up to New York on Monday morning. The Great Western was announced as in sight about 11 o'clock. The latter made the voyage from Bristol in 14 days, the former from Cork in 17 days.

UPPER CANADA.
Executions. Messrs. Lount and Matthews were executed at Toronto on Thursday last, for having dared to assert their natural civil and political rights. Their blood may go unavenged; but their memories should be engraven upon the hearts of the friends of freedom every where. By the extracts in another column, it will be seen that several others were to be executed on the 24th inst. Fourteen convictions have taken place. —*Ruf. pa.*

The following persons were sentenced to be executed on the 24th inst.—Horatio Hill, Stephen Smith, Charles P. Wadsworth, Ephraim Cook, John Tafford, Nathan Town, Peter Malouin, and John Montgomery, John Anderson, Gilbert Field, Morden, and Edward A. Theller, on the 24th inst.

The New York Commercial has advised from Toronto, up to Wednesday week. At 9 o'clock on that day General Sutler land was banished for life, to New South Wales. It was the prevailing opinion at Toronto, at that time, that there would be no farther executions, except perhaps of General Theller, and opinions were about equally divided, as to the fate of that individual, between death and banishment. Mr. John G. Parker had pleaded guilty, and thrown himself upon the court for mercy; it is feared by his friends that he will be among those who will be banished to New South Wales.

Samuel Lount, who was executed at Toronto on the 12th, was upwards of six feet in height, and aged about 47 years, and is said to have been a very good looking man. He was a native of Pennsylvania, and had been in Canada since 1812. He married a daughter of Mr. Sales, a wealthy farmer, who resides a few miles north of Toronto; he has left a widow and seven children. We understand that when Sir George Arthur was waited on with entreaties that the life of Lount might be spared, he said that he had given the matter that consideration which the distressing case required, but that he could not consistently with his views of justice, extend the royal clemency to the cases of the individuals, Lount and Matthews. In consideration of his family, however, the property of Lount should not be confiscated, but given to Mrs. L. for the support of herself and children.

LOCKPORT, APRIL 18. A man by the name of Dawson, was yesterday committed to our jail on a charge of murder. It is said that he crossed from Canada to Youngstown, accompanied by his intended, to get married—not caring to pay a license to his majesty. The fellow was recognized as one of the numerous band of the royal ruffian, Bow, who burned the Caroline. The Justice, instead of entering the couple in the solemn bonds of wedlock, issued his warrant and had Dawson arrested for murder.—*Niagara Courier.*

NEW YORK LEGISLATURE.—The New Legislature has just adjourned, after a laborious and spirited session of 107 days, and the passage of 333 acts. Among the most important acts of the session, are those for the continuation of those internal improvements to which so much of the prosperity of the State has been owing. Not discouraged by the present disastrous condition of the industry and business, the Legislature has bestowed its liberality with an open hand,—a wise liberality which ought to find imitators in other States. Four millions were appropriated towards the more speedy enlargement of the Erie Canal; a loan of three millions was voted in favor of the New York and Erie Railroad, and generous sums to several other railroads. Another most important act is one by which the monopoly of the auction business is entirely destroyed, and the business thrown open to public competition. This auction monopoly was a great resource of political corruption. Another act distributes the interest of the surplus revenue received from the general government, among common schools, district libraries, academies and colleges. But the great act of the session, is the bill throwing open the business of banking, and authorizing associations, for the prosecution of this business, under a general law. This act is destined to produce a complete revolution in the business of banking; and we shall take an early opportunity to give an account of it more at length.

It is with feelings of sadness that we are called upon to notice the sudden decease of one of our most worthy citizens. Mr. Henry Sawyer, of the firm of Lockwood & Skinner of this city. The deceased was in the father's shop of Mr. Rich. he was shared, when without an admonition to those who were present, he fell upon the floor dead! How inscrutable are the wills of Providence. In the midst of life, we are in death! —*Troy Mail.*

Call and see.
SAMUEL S. SKINNER.
Burlington, April 27, 1838.

THE GENUINE MORRISON'S PILLS, AND POWDERS.—Just received direct from Geo. Taylor, 13 Chamber st., New York, sole agent for the United States, I more case of the genuine Morrison's Pills and Powders; making the 5th large case rec'd this writer. The superiority of these medicines is duly appreciated by an enlightened public. No sooner was it known that the genuine Pills and Powders made by Morrison the Hygienist, could again be had in Vermont, than orders were received from all parts of the State for them; and letters are very often sent us informing us that the Pills received from us are the same kind which were first sent to the United States by Mr. Morrison, expressing in the warmest terms, their gratitude to us, for supplying this State with this first and best Vegetable Medicine. The sale of this medicine is constantly increasing in all parts of the world; it gives perfect satisfaction, and it will continue to be used by greater numbers every year, as all who use it according to sound judgment are benefited and do invariably continue to use it whenever they need medicine, and recommend it to the fullest confidence of their sick friends. It has cured in hundreds of thousands of cases where every thing else has failed to afford relief. There is more undoubtedly of this medicine used at this time in the world, than of any other that has ever been discovered; and what is more important it is curing more than any other medicine. The price for this medicine are:
For Packets containing over 115 Pills \$1.
For Packets containing over 360 Pills \$3.
Having a proportion of two to one of No. 2 Pills in them. For the accommodation of those who wish to get the No. 1 or No. 2 Pills separately they are put up also in 25 and 50 cent boxes, only one kind in a box. They can be had also in quantities costing 75 cents and 1.50 cents. The Vegetable Aperient Powders are 25 cents per box; these are to be used when the No. 2 Pills occasion thirst, or sickness at the stomach; and at all times they greatly assist the good operation of the medicine. Directions for taking the Pills. Take 2, 3, 4, 5, or more of the No. 1 Pills the first night and the same number of the No. 2 the two following nights and so continue alternately, one dose of No. 1, to two doses of No. 2's, when they occasion thirst or retching, make a drink of the Powders, mixed with water and sugar. It is not possible to give directions, perfectly applicable to every possible

case, but each person must use judgment in taking medicine, and very soon will know whether 2, 5, or 10 Pills are necessary to a dose in their case. In violent, acute cases, such as Fevers, Colic, Pleurisy, Inflammations, Small Pox, Measles, &c. follow the directions given on the wrapper accompanying the Pills. More full directions accompany each box and packet. Purchasers in this state if they wish to get this best and genuine medicine will always look and see that the box or packet is signed in writing by Geo. Taylor & Brimfield, —if it is not so signed, do not buy it, no matter how plausible a story is told by them concerning its genuineness. We supply this state, and shall not let a box or packet go from our shop until it is signed. And purchasers out of the County of Chittenden are informed that we have but one agent in a County, (said agent has the privilege of leaving the medicine in any town in his county, by taking \$300 bonds of the person selling them, that he will not sell any other medicine purporting either directly or indirectly to be this article.) In addition to our signatures, the county agent will sign his name upon every box or packet sent to him—unless they are so signed do not purchase them. Do not buy them of Druggists or Pedlars, for they have not the genuine article made by Morrison. See that the person presenting to sell the genuine Pills has a certificate signed by us and confirmed by Geo. Taylor, sole agent for the United States, also a printed one signed by Geo. Taylor suspended in his store. PANGBORN & BRIMFIELD, Jewellers Burlington Vt., agents for the state of Vermont, appointed by
Geo. TAYLOR,
13 Chamber st., New York, sole agent for the United States, sent out by the British College of Health, London.

Samuel D. Hyde's Estate.
STATE OF VERMONT.
DISTRICT OF CHITTENDEN ss.
At a Probate Court holden at Burlington, within and for the District aforesaid on the twelfth day of April A. D. 1838. An instrument purporting to be the last will and testament of Samuel D. Hyde, late of Charlotte, in said District, deceased, was presented to the Court here for Probate, by Amos Clark, the Executor therein named.

THEREFORE it is ordered by said Court, that public notice be given to all persons concerned therein to appear before said Court, at a session thereof to be holden at Burlington on the second Wednesday of May A. D. 1838, and contest the probate of said will, and it is further ordered that this order be published three weeks successively in the Free Press, a newspaper printed at Burlington, in this State, the last of which shall be previous to the day assigned, as aforesaid for hearing.

Given under my hand at the Register's Office, this 12th day of April A. D. 1838.
WM. WESTON, Register.
